

ABOUT US

Introducing Lighthouse Integrated Systems: Your Trusted Partner for Electrical and Cabling Solutions. Founded in Tulsa, OK in 1989, LISTulsa is an employee-owned company that prides itself on fostering long-lasting relationships with clients. We are dedicated to providing top-notch service and cost-effective solutions on every project we take on. With a team of certified professionals, we specialize in custom design and implementation of electrical, low voltage, and structured cabling systems for commercial and industrial facilities in multiple states.

CORE COMPETENCIES

- **Fire Alarm Systems:** Custom designed and installed fire detection systems meeting relevant code requirements.
- **Access Control Systems:** Design & Install card readers, keypads, biometrics, mobile access, and integration with intrusion detection and video surveillance.
- **Intrusion Detection:** Layered protection including sensors, alerts, and monitoring customized for each facility.
- **Video Surveillance:** TAA Compliant IP surveillance systems featuring remote access, analytics, and integration.
- **Structured Cabling:** Engineered cable plant supporting integrated security, voice, and high-speed data.
